

Material data sheet

THA-C/16A

TECHNITRACE

Ambiant thermostat for control of freeze protection installations

Stainless steel external sensor

Maxi intensity = 16 Amps / 230 V (2 outputs)

Water proof box IP 65 : for fixation on wall or on pipe use the EQ/FIX or T/SCS accessories

Range of temperature : from 0°C to +50°C

Thermostat welded on a printed circuit

1 supply voltage input (left)

2 Outputs for heating cables (center and right)
for both a maximum intensity of 16 A

1 electric gland PE 13 is included for alimentation
